

Creative Thinkers, Confident Kids

Ages 18 months - 3 years

Hop Hop

Max

Gerry

Key Features

1. Drama Time. Children get up on their feet and explore various scenarios and experiences. In Thinking Tots®, children participate as creators and share their ideas to develop a story collaboratively.

2. Puppet Play. In every session, children will get to meet our Thinking Tots® characters in the form of puppets. Through interacting with Gerry, Max, and Hop Hop, children learn to see different perspectives. They learn to celebrate with a puppet and comfort it; they may also learn what it's like to be on the receiving end of a tantrum.

Hello there!

At Thinking Tots®, we believe that every child is a competent, creative thinker. With the appropriate resources and facilitation, it's never too early to see toddlers express themselves creatively and confidently.

Kids learn
with Max, Gerry,
& Hophop!

Our Approach

Our programme ignites and expands thinking using our F.R.E.E. approach, developed based on early childhood pedagogy.

Facilitation. Less teacher-talk, more learning! Our teachers empower children to co-direct their learning by tapping on their interests and abilities.

Relevance. Children are more ready to explore and discover when they feel safe. Our activities pivot on relevant, real-world experiences.

Environmental preparedness. We build a safe and stimulating environment so students can participate actively and learn.

Enjoyment. No play, no gain. In Thinking Tots®, we transform fun-filled play into meaningful learning opportunities.

Learning Outcomes

Each child is unique. Thinking Tots® is carefully designed to boost the development of each child, according to their abilities.

Through our programme, students will...

- 🌸 Engage in creative thought
- 🌸 Display growing confidence
- 🌸 Practise communicating with teachers and peers
- 🌸 Express emotions
- 🌸 Learn to work with others
